

SIDE EVENT

Strengthening NBSAPs Implementation Using Technological and Scientific Tools for Natural Capital Accounting

OCTOBER 23th, 2024 - 11:40 AM - 13:00 PM
FARALLONES - YOUTH MEETING ROOM (PLAZA ONE)

This event will showcase how the Ecosystem Natural Capital Accounting of (ENCA) method and indicators can help to effectively strengthen the implementation of National Biodiversity Strategies and Action Plans (NBSAPs). The event will make it possible to share experiences, best practices and lessons learned from the development, use and implementation of the NBSAPs. By enriching knowledge on the scientific approach and technological tools relating to the ENCA, the meeting will also help to strengthen the capacity of countries to use them to support the implementation of financial plans and more effective conservation strategies, in line with the goals of the global biodiversity framework.

The side event will also explore and share lessons learned from African countries on integrating ecosystem service values into national planning processes. The session will highlight successful approaches, challenges and innovations in incorporating these values into policy and decision-making frameworks, focusing on practical experiences and outcomes.

The debate will focus on five topics and will make it possible for the participants to interact.

PANEL

- Sahara and Sahel Observatory - OSS
- Copernicea project Focal points
- French Development Agency - AFD
- Global Biodiversity Framework - CBD
- United Nations Development Programme - UNDP
- International union for conservation of nature - IUCN
- South African National Biodiversity Institute - SANBI
- Institute of Francophonie for Sustainable Development - IFDD

ALLOCATION D'OUVERTURE

H.E. Mrs Djami DIALLO

Guinea's Minister of the Environment and Sustainable Development (TBC)

Mr Nabil BEN KHATRA

Executive Secretary of the Sahara and Sahel Observatory

MODERATION

Mrs Ndeye Fatou MAR

Land & Biodiversity Department
Director at the OSS
